

Stable Bend Liner

A Limited Stretch (at 3 psi (0.2 bar) Semi Elastic, Felt Drain Liner designed with Dimensional stability when inverted, yet Flexible enough to go round 90 degree bends.

Liner Size Availability	4, 5, 6" (100, 125,150mm)
Coating stiffness	Medium PU/PVC
Movement Inversion head	Medium
Burst Pressure	Medium
Temp Resistance	50 deg C (130 deg F)
Method of seam	Stitched + Welded Tape
Thickness Availability	2.8 - 3.2mm
Bends ability	75 deg
Liners Stretch capability	15%
Supply Packaging sizes	100m (328 ft)
Possible CIPPTechniques	Direct Inversion, Invert and Invert,Invert and Inflate, Double Inversion
Possible Lining Processes	Plumb Liner
